

UK DEVOMAX:

It is not only Scotland & the SNP who seek devolution from London. The rest of the UK are also appalled at the criminal activities of our Corporate /Political elite.

The manipulations of the London criminal bankers cartel, the secret societies & the oil companies have led to a continual ethos of War & Fraud which shows a reckless disregard for other countries & ultimately humanity.

This is a plan to ostracise & isolate those who chose to damage the UK & its economy. We must get rid of the criminal sociopaths & the psychopaths from the structures of government.
