## United States Unleashes Military Coup In Saudi Arabia After Russia Ignites Oil Price Armageddon

An astounding new **Security Council (SC)** report circulating in the **Kremlin** today adding a new and fearful chapter to **The New Great Game** reality of our world, makes it no wonder why top **American** energy security expert **Samantha Gross** has just stated with alarm ***"I'm a little shocked frankly because the Russians are really playing with fire"***—a response **Gross** made to a series of pivotal moves occurring in this **"New Great Game"** yesterday that began with the **United States blocking the United Nations from supporting a Russian-Turkish ceasefire in Syria**—that **Russia** quickly countered by igniting a global **"Oil Price Armageddon"**—

A term describing how **Russia** made a dramatic turn away from the **Saudi-led OPEC+** and refused to cut production to hold up the price of oil—which cratered the price of oil to its present price of **\$41.57 a barrel**—a catastrophic price for **US oil producers who need a barrel of oil to cost as much as \$65 to break even**—and are the same **US oil producers** who were warned late last year that **"2020 Will Be The Year Of Oil Bankruptcies"**—a warning that swiftly became true yesterday as evidenced by what happened with the **CBOE Volatility Index (VIX)**, otherwise known as the **"Fear Gauge"** or **"Fear Index"**—a creation of the **Chicago Board Options Exchange (CBOE)** that is a real-time market index that represents the market's expectation of **30-day** forward-looking volatility—and that yesterday caught a large **American** financial entity disastrously betting everything they had on global oil prices being stabilized.

The reaction to which saw shocked **US** market traders saying such things as ***"Someone Big Was Utterly Blown The Fuck Out"***—***"Someone Big Literally Doesn't Exist Anymore"***—and ***"The Fed Must Now Step In Or A Catastrophic Crash Is Inevitable"***—but to prevent such a catastrophic crash from happening, saw **Saudi Arabia** having paid **\$500 million to the US** to move thousands of **American military troops** into their oil rich nation—**American** troops who yesterday, and joined by thousands of **US troops stationed in neighboring countries**, rapidly moved into combat readiness to protect vital **Saudi** government facilities and oil production centers—immediately after which, **Crown Prince Mohammed bin Salman** placed in detention his main rivals for power **Prince Ahmed bin Abdulaziz**, the younger brother of **Saudi King Salman bin Abdulaziz al-Saud**, royal cousin **Prince Nawaf bin Nayef** and former interior minister **Mohammed bin Nayef**.

Who were then accused in court of attempting a coup and are now under threat of lifetime imprisonment or execution—but whose real crime was their opposing the lost revenues caused by **Saudi oil production cuts**—production cuts whose main beneficiary are **American** oil producers needing a higher price per barrel—and due to **Russia** now having blown up the **OPEC+** cartel, are **Saudi** oil production cuts sure to accelerate before an **"inevitable crash"** occurs

According to this report, the strategic move made by **Russia** yesterday in igniting this global **Oil Price Armageddon** as a response to the **US** blocking the **United Nations** from supporting the ceasefire in **Syria**, is in its being an accelerant to force the **Americans** to finish up their end game machinations in how to punish the coup plotters against **President Donald Trump**—an end game nearing best evidenced by **Trump** having just appointed the powerful **Republican Party US Congressman Mark Meadows** to be his war council **White House Chief of Staff**—

**US Attorney General William Barr** having just appointed former top **White House** official **Will Levi** to be his war council **second-in-command**—all of whom are now having to deal with a new front opened up against them by the socialist-globalist **George Soros** funded radical leftist organizations **Electronic Privacy Information Center** and **Protect Democracy**—the former who are using anti-

Trump warmongering neocon **Bush** appointed **US District Court Judge Reggie Walton** to outrageously smear Attorney General Barr with lies while trying to pry out of the **US Department of Justice** secret grand jury testimony against these coup plotters—and the later who are using radical leftist **Clinton** appointed **US District Court Judge Colleen Kollar-Kotelly** in an attempt to pry from the **National Security Agency** additional evidence to be used against these coup plotters—neither of which will be successfully, as no prosecutor turns over to criminal defendants the evidence they have before charges are made, most particularly to corrupt **US Federal Judges** who are aiding these coup plotters.

**US Federal Judges** not supporting these coup plotters, though, this report notes, are those sitting on the **United States Foreign Intelligence Surveillance Court**—otherwise known as the **FISA Court**, and who gave the **Obama-Clinton Regime** domestic intelligence agency **FBI** permission to spy on the **Trump** campaign during the **2016** presidential election—

But upon these **FISA Court Judges** learning that former **FBI Director James Comey's Crossfire Hurricane Team** inserted blank pieces of paper into the **FBI** file used to document support for the **FISA Warrants** on **Trump** campaign aide **Carter Page**, saw them exploding in anger this week when, on **5 March**, they effectively barred all of the **FBI** and **Justice Department** officials involved in the infamous application to surveil former **Trump** campaign associate **Carter Page**—

An anger, also, matched this week by **US District Judge Emmet G. Sullivan** who is overseeing the made up case against **General Michael Flynn**—and in whose courtroom yesterday, saw him issuing one of the most extraordinary orders ever seen in **American** legal history—an order **stunningly supported** by both **General Flynn** and the **US Department of Justice**—and that orders **General Flynn's** former defense lawyers to immediately submit to questioning by **Attorney General Barr's** prosecutors—the same former defense attorneys believed to have conspired with prosecutors against **General Flynn**.

In further evidence showing that the end game for these coup plotters is being prepared for by **President Trump** before they're able to ignite a global war or economic catastrophe, this report concludes, is the shocking about face just performed by **Crowdstrike**—the **Hillary Clinton** funded computer company that started the **Trump-Russia** collusion hoax when they lyingly claimed that **Democrat Party** email servers were hacked by **Russia**, who then gave these emails to **Wikileaks** in order to aid the election of **Trump**—computer email servers **Crowdstrike** never allowed the **FBI** to examine, but gave them a "report" on—with this week now seeing **Crowdstrike** saying that they **NEVER** told the **FBI** that **Russia** hacked these emails at all—

**NEVER** told the **FBI** that **Russia** hacked these emails at all—

A shock announcement being met by **American** experts asking the obvious question: "So if **Crowdstrike** now claims they didn't confirm that **Russians** gave emails to **Wikileaks**, then who the hell did?"—the answer to which doesn't want to be given by former **MI6** British spy **Christopher Steele** whom **Clinton** paid millions-of-dollars to create the hoax **Trump-Russia Dossier**—and who is now declaring that he won't cooperate with **Trump** coup plot investigating prosecutor **US Attorney John Durham**—an ill fated move, however, when viewed in the context of **US Attorney Durham** now

examining “*an index of the messages compiled by an unnamed foreign ally that include emails from President Barack Obama as well as members of the US Congress about the planned coup plot against Trump*”—most particularly because this “*unnamed foreign ally*” is, beyond all doubt, **Steele’s** own **British** government, and his former **MI6** employers—both of whom are solidly **pro-Trump** since they split from the **EU** last month—and need **America** much more than they ever needed this washed up **Clinton-colluding** corrupt spy.
