CORONAVIRUS A Global False Alarm.

German Official Leaks Report Denouncing COVID-19 As "A Global False Alarm"

Authored by Daniele Pozzati via The Strategic Culture Foundation,

Germany's federal government and mainstream media are engaged in damage control after a report that challenges the established Corona narrative leaked from the interior ministry.

Some of the report key passages are:

- **The danger of Covid-19 was overestimated:** probably at no point did the danger posed by the new virus go beyond the normal level.
- **The people who die from Corona are essentially those who would statistically die this year,** because they have reached the end of their lives and their weakened bodies can no longer cope with any random everyday stress (including the approximately 150 viruses currently in circulation).
- Worldwide, within a quarter of a year, there has been **no more than 250,000 deaths from Covid-19, compared to 1.5 million deaths [25,100 in Germany] during the influenza wave 2017/18.**
- **The danger is obviously no greater than that of many other viruses.** There is no evidence that this was more than a false alarm.

:*During the Corona crisis the State has proved itself as one of the biggest producers of Fake News.*

The report focuses on the "manifold and heavy consequences of the Corona measures" and warns that these are "grave".

More people are dying because of the state-imposed Corona-measures than are being killed by the virus.

The reason is a scandal in the making:

A Corona-focused German healthcare system is postponing life-saving surgery and delaying or reducing treatment for non-Corona patients.
