

## **DEEP STATE'S LAST STAND:**

### **US Election Outcome Jan. 20th and Beyond**

Reply...

To be honest, I do not think anyone knows what is coming next with 100% certainty because it is literally DO or DIE for the Deep State Bad Actors in the closing stage of the revolutionary play. That said I expect to see a lot of “suicides” with no investigations in the coming weeks and months.

I say this because I am in daily touch with the CIA, FSB, Defence Intelligence Agency, MI6, P3 Freemason sources, etc. and they do not know what is going to happen with 100% certainty. It may well be the Final Act for the Deep State Bad Actors who are ruthless and evil beyond imagination.

As a White Hat, we are instructed NOT to reveal sensitive information into the public spotlight too soon. We are chosen as a negotiator and public face because we are not afraid to die for the just cause of bringing the truth to the world in whatever manner possible.

Please understand it's necessary to provide operational security in these final stages when any leak could alert the Deep State international swamp criminals to the venom that awaits them with the massive sting operation that has been years in the planning. The WDS has an ongoing operational exchange with Pentagon White Hat sources in order to provide security as well in Asia.

Let me paint around the lines. Imagine a fish tank with a big old goldfish as the Piranha eyes up its lunch. The big old goldfish, BOG, has become a slow swimmer and now the Pirana can see who has grown to be the biggest and most evil in the tank. BOG tries to swim to a safe place once she realizes she's about to have her head bitten off. The Pirana lightly flicks his tail and moves with lightning speed to cut off her escape route. BOG panics and turns away then suddenly sees the glass walls of her tank that she didn't notice before. Her heartbeat starts to race as she realizes she's been trapped. She lashes out with 48hr-impeachment and 24hr-article 25 demands in doomed self-incrimination of historic evil guilt.

Now the Deep State swamp creatures realize that Trump is not just looking for reelection, he's completing the work of JFK who got knifed in the back by Bush Sr. and the European Banksters when he tried to end the CIA and Fiat-Debt-Based “Currency” Insta-Magic-Credit System. Let's call it the FDBC- IMCS for short.

Perhaps Trump is just a frustrated patriotic businessman who was recruited to become President and complete the White Hat triangle of Constitutional power necessary to defeat the dark enemy of mankind and bring in a new age of awakening and freedom from financial slavery.

Catching the corrupt MSM and social media swamp creatures going way over the line into electioneering with whatever fabrication necessary to demonize Trump and the Patriots was a culmination of the ultimate sting operation and now the net is tightening as Twitter and Facebook share prices plummet. The big broadcast networks are also in line for a complete housecleaning.

This is the last stand of the Deep State and now they realize they've lost at the political game of chess when the report on election interference by a foreign government comes out.

Trump is cleverly taking back control of the Constitutional Republic and destroying the central banking system like Andrew Jackson. He's freeing the country from financial slavery, which, through the power of public awareness of a global audience, will eventually cause all the other BIS central banks to fall like dominoes around the world.

All half-a-dozen countries, including Canada, involved in the election fraud are being identified with power-outage special operations and curfews.

When all is said and done as a proud Canadian who has travelled and lived throughout the entire area, I still envision a unified America from North to South in one landmass brother-sisterhood of cooperation through the exchange of goods and services for mutual benefit.

But still, the closing act of the revolutionary play has time left to feature Pelosi's closet being opened with the investigation announced Jan. 6th into her father, initiated by JFK. It's starting to look like Trump will follow what JFK tried to do and finish the job.

One scenario could have the internationally-coordinated Biden election fraud revealed before Jan. 20th, which under the Executive Order of 2018 would make the election null and void and bring in an interim military government. This patriotic military government, operating under the laws and rules of the Constitution, would finally have a chance to look at all the "MSM nonexistent" election fraud. During an interim period, military tribunals will expose the right and left Deep State swamp criminals and a new political party emerges – Great America.

On March 1st the investigation in the 2020 election fraud is concluded and the actual results are certified. On March 4th Trump is inaugurated as the 1st president of the United States of America Republic. It's really a shame but due to the China Virus, the U.S. Corporation and the ol' Federal Reserve Bank both declare bankruptcy and all debts die with them.

In one quantum computer scenario, Trump picks John. Jr. as VP after Pence goes quietly into the night and avoids child murder charges. A new Great America Party wins as Trump becomes the first President of the United States Republic of America on March 4th. John Jr. is elected for 8 years following Trump to complete the transformation of the present-day U.S., which reverberates throughout the global economy, ushering in a new age of universal awakening and harmony with the environment, finally allowing colonial expansion into the universe.

Another scenario might feature a 70% purge of the Deep State Actors in the Senate and House, facilitating a November 3rd, 2021 Senate, and House elections using paper ballots. The shocking revelations of the Cabal's U.S. political and global crime syndicate spawn a worldwide phenomenon of awakening. This is the result of weeks of military tribunal evidence shown worldwide over the Emergency Alert System and all nationalized media found guilty of electioneering on behalf of a foreign power in a federal election, in violation of the 2018 EO.

It's now public that Pelosi's laptop data got retrieved during the staged event on Jan. 6th. And I suspect it's no coincidence that Trump delayed his speech by one hour to make sure it would be distinguishable that his supporters were still listening at the rally, at the same time Antifa bused-in-with DC police escort, caught on video antagonists dressed up in Trump supporter gear with Confederate flags per script, stormed the Capitol. Credit to Soros Jr. who has a budget for good insurrection-OP scriptwriters.

The Trump Sting operation is in the closing stages of a historic transformation into the next evolution of the planet with a financial system that doesn't burden the worker with unnecessary interest on the fiat money supply created as the virtual world "money of account" credit debt, to be paid with real-world "money of exchange" compound interest. Those not familiar with the power of compound interest as a financial tool please Google it at your own risk.

Having said that, based on everything I am hearing, we are dealing with a group that is above the level of visible governments. This group is headquartered in Switzerland. They planned this ongoing COVID 19 campaign at least as far back as 2012. They want to reduce the world's population by 90% and enslave the rest.

The problem is that they have control over most of the visible leaders on Earth through a combination of bribery, brainwash, and blackmail. This means we need to remove the heads of state for most of the G7 countries in order to deal with this. My understanding is that this process is underway but the problem is so many people have been conditioned into following orders that we need to let the current system collapse further before it will be possible to reboot it.

Joe Biden has never been seen in public during the entire so-called election campaign so it is doubtful he even exists anymore. I haven't seen him taking a group photo with the Joint Chiefs recently. The truth is as we all know there is no way they could ever accept him knowing he is a traitor to his country multiple times over even before the election fraud. It's truly amazing the depths that the Deep State will sink to, to make sure Biden gets presidential immunity from prosecution and the big hairy plug stays in the bottom of the swamp.

My understanding is that the Rockefellers, Rothschilds, etc. made a deal with China "to elect Biden" and then remove him after a short interval and put Kamala Harris in power. They had to do this or watch their USA Corporation go bankrupt.

In any case, the battle is raging. There is a lot of stuff I cannot talk about but we have specific actionable intelligence that could end the COVID campaign.

To summarize there will be chaos and systems collapse over the coming months in the West, and only then will something better emerge.

p.s. Since "Nothing Can Stop the Storm" I would point out that this Memorandum signed by the Joint Chiefs doesn't appear to be dated, making it technically incomplete at some intermediate stage of certification, and may become known as "The Trump Card" for posterity when the storm hits. Make your enemy think you are at your weakest when you are at your strongest in the Art of War.
