Transition to a New Age for the American Continent Set to Begin

P3 sources say Amazon founder Jeff Bezos is now the de facto Director calling the shots as interim caretaker, so-called President Joe Biden is holding his oval office appearances at the Castle Rock, Amazon Studios in Culver City, California. <https://www.youtube.com/watch?v=d3bx42MrtZw>

The White House in Washington DC remains unoccupied. According to a colleague with a White House Press pass:

“The White House...press office and WH press contacts phone numbers have been disconnected, but I am still receiving forwarded emails from another server other than the White House. Also, the public comment line at the White House has been closed...this is just on the surface and is playing out to wake the sleepwalkers but I don't see how they can keep up with this ruse for much longer.”

The so-called regime now “controlling” the United States has already proposed to other countries the idea of holding online meetings. In other words, it is just a matter of time before the leaders of other governments realize there is no physical Biden competent enough mentally for them to meet.

The P3 now wants Bezos to oversee a transition to a new system based on meritocracy and real-time democracy. They say he was assigned following a failed attempt by the Rockefeller family and the Khazarian Mafia to hand the U.S. over to Communist China in exchange for vast amounts of money.

When the Rockefellers were removed from control by the Illuminati, the Chinese Communist Party – also controlled by the Khazarian Mafia – retaliated by trying to invade Taiwan.

Now, following the CCP defeat in the air war over Taiwan, the CCP seized de facto control of Pakistan and Myanmar. They now have India surrounded and are threatening to invade it.

The military coup in Myanmar, which accounts for roughly 10% of global rare earth metal production, temporarily sent shares of Chinese rare earth companies surging, driven by fears that instability and U.S. sanctions [could disrupt exports](#).

Also, on February 3rd, the U.S. and Japanese military were staging a live-fire drill at a training ground near Mt. Fuji when a massive fire erupted that raged uncontrolled all night. It was briefly reported in the Japanese media before a news black-out was enforced. None of our contacts was willing to talk about what happened but it looks like they were attacked, probably by the Chinese.

<https://www.youtube.com/watch?v=LqczipCW1j0&feature=youtu.be>

However, according to Japanese military intelligence, the Chinese Communist Party is about to lose power. The reason is that the Taiwan faction, connected to the old Ming, Sung, and Tang royal families, has activated their 8 million secret society members in mainland China. They did this in reaction to the attempted invasion of Taiwan and because the CCP killed millions of people in Wuhan with their ill-advised 5G activation. This means the people of China and the U.S. are fighting the same Satanic enemy.

This is what this entire Covid-19 bio-warfare campaign against the people of the planet is all about. For example, take a look at how Egypt punished slaves and damaged their brains to make them more docile and then compare it with “Covid-19 tests.”

<https://twitter.com/DeannaSpingola/status/1356349883251351554>

Then look at the nano-devices they are putting into people's brains using this intrusion.

<https://www.naturalnews.com/2021-02-01-swab-tests-microdevices-secretly-vaccinating-hesitant.html#>

This is the real enemy we are fighting.

Also, in case you haven't figured it out yet, here is more proof Covid-19 is a fraud.

<https://twitter.com/DeannaSpingola/status/1356349883251351554>

Furthermore, if you do not think the paedophilia stuff is real, take a look at what took place in just one Catholic orphanage. Young boys were sold as sex objects over decades. For sure, this was not an isolated incident, child sex slavery, etc. was systematic and took place all over the world.

In another example, establishment Republican insider Ruben A. Verastigui was arrested last night for allegedly soliciting possessing and distributing extremely violent child pornography depicting infants being raped by adult men, police say. He was quoted as saying "when a baby screams it's my favorite." <https://nationalfile.com/when-a-baby-screams-its-my-favorite-establishment-republican-insider-mtg-hater-arrested-for-child-pornography/>

We are fighting back, and fighting hard. For example, Mario Marín, who governed the central state of Puebla from 2005 to 2011 is the first governor arrested for acts of torture against journalists and linked, furthermore, with a ring of trafficking girls and boys,

The Russians are doing their part by successfully using an ordinary flu vaccine to replace the DNA altering vaccine being pushed by the Satanists.

Also, the systematic removal of all people involved in the Covid 19 crime is continuing according to MI6 and Russian FSB sources. That is certainly why Andrew Brooks a research professor at Rutgers University who [developed the first saliva test for the coronavirus](#) has unexpectedly died at the age of 51.

<https://nypost.com/2021/02/01/rutgers-researcher-creator-of-covid-19-saliva-test-dead-at-51/>

Worldwide, meanwhile, as Iran's supreme leader Ayatollah Ali Khamenei tweeted "The post-U.S. era has started." https://twitter.com/khamenei_ir/status/1358464064322691078?ref_src=twsrc%5Etfw

He also tweeted "Their recent events were a fiasco. #Trump's fall wasn't just the fall of an unfit president. It was the decline of U.S. power & social order," adding that these "are the words of U.S. experts, not ours."

This, by the way, is what a high-level P3 Freemason source had to say about why U.S. President Trump left the White House:

"They got to Trump-they killed his brother with a "heart attack" [in August 2020]. Also his wife Melania was on a government plane that made an emergency landing due to a "malfunction"— so Trump gave up. That is why Barr, Durham, Huber did nothing—and nothing will happen. Trump was not going to sacrifice his family for all these elections and was removed because he was standing in the way of a "Star Trek future."

Although if many U.S. patriots are bitterly disappointed over this turn of events, they should not be. Instead of looking back at an imaginary past with rose-tinted glasses, they should participate in the ongoing second American Revolution by helping to create a better future.

Let's also keep in mind recent developments such as U.S. General Michael Flynn speaking on February 6th in a 50-minute interview where he said, "We have to accept the situation as it is and now we have to do something about it." Flynn noted that if they are trying to impeach Donald Trump then "you must still call him Mr. President because you can only impeach a sitting president." He also noted, "People do not believe the nonsense coming out of our current government." Flynn previously said he was 100% confident in the future outcome so let's see where that goes.

He may be providing some misdirection for operational security as the public is now able to view a summary of key evidence in the "Absolute Proof" presentation likely to be used in Trump's defense during the upcoming impeachment trial. It implicates many foreign nations of hacking the vote in a feeding frenzy with captured real-time IP addresses and vote tabulation. <https://rumble.com/vdlebn-mike-lindell-absolute-proof-exposing-election-fraud-and-the-theft-of-america.html>

What Americans need to understand is that their country was taken over at an early stage by a cult of genocidal human slavers. For example, while all or most Americans know that the Declaration of Independence reads "all men are created equal...and are entitled to life, liberty and the pursuit of happiness," they are mostly unaware it also contains the following phrase:

"The merciless Indian Savages whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions."

This false statement was used to justify a deliberate policy of genocide against First Nations. That is why in the U.S. now there is less than a quarter of the first nations peoples than were there when the first European settlers arrived.

Furthermore, the United States has been at war almost constantly during its 245 years of "independence." Since World War II ended the United States has killed tens of millions of people through bio-warfare in Africa and other countries as well as through wars in Vietnam, Iraq, and elsewhere.

As someone with ancestors on the Mayflower, I do not forget that our ancestors were saved from starvation by the First Nations. That is why, together with Americans, we celebrate Thanksgiving. In Canada, we never forgot our original bond with the First Nations, which is why there are now far more of them than when Europeans first arrived.

Now is the time for Canada and the United States to create a new republic that really does treat all humans as equal.

The P3 is promoting Bezos as a believer in meritocracy who wants to colonize space. <https://abcnews.go.com/Business/blue-origin-jeff-bezos-unveils-lunar-lander-mission/story?id=62941981>

If you do not like this vision, we recommend you take Bezos off his pedestal by pushing for something even better.

Also, we believe a more insidious enemy is the group of families who still control the Fortune 500 companies.

For example, the old oil, gas, and coal oligopolies are holding us back and keeping us poor by preventing the spread of hydrogen fuel. The technology exists where people can use a solar panel and water to create their own hydrogen fuel. The only exhaust these cars would produce would be water vapor.

Instead, they are pushing “green,” electric cars. The problem is most of the energy used to power electric vehicles comes from burning coal, which pollutes a lot more than gasoline-burning internal combustion engines do.

That is why “the European oil giants Total, BP and Shell have been [buying up assets](#) along the EV charging value chain. The latest news is that Shell has agreed to buy 100% of the European charging network ubitricity.”

<https://www.naturalnews.com/2021-02-07-gm-kristin-zimmerman-clean-energy-95percent-coal.html#>

<https://chargedevs.com/newswire/oil-companies-buying-up-ev-charging-networks-shell-acquires-ubitricity/>

The Japanese are fighting to remove Khazarian Mafia control of their country in part because their efforts to move to a hydrogen-based economy are being stifled by the Rockefeller type oil interests. Remember, these are the people who staged the March 11, 2011, Fukushima attack on Japan in part to force them to buy more oil.

Japanese right-wing sources say Japan will soon be an independent country as Khazarian proxies are being systematically removed.

In India as well, farmers are blocking roads all over the country to stop Prime Minister Narendra Modi from impoverishing them and selling them out to the interests of Fortune 500 agribusinesses.

<https://www.reuters.com/article/india-farms-protests/update-1-un-urges-maximum-restraint-as-india-farm-protesters-widen-blockade-idUSL1N2KC03L>

In other countries, a series of regime changes are unfolding as well. Recently there have been changes of leadership in Holland, Myanmar, and Italy. These will be followed by changes in Thailand, Albania, Colombia, Germany, and Mongolia, according to Japanese right-wing sources, who successfully predicted the above three changes of government.

On a final note this week, the Chinese New Year this year will last for 16 days starting on February 12th. This means March is when big things will happen. That is when Asian secret societies say they’ll be ready to reopen negotiations with Western secret societies over the future of the planet. Their basic stance is “no conflict, no confrontation, mutual respect, and win-win cooperation to focus on cooperation and manage differences.” http://www.xinhuanet.com/english/2021-02/08/c_139729794.htm

However, please brace yourself for turbulence over the next few weeks as Eastern and Western secret societies carry out big moves to try to strengthen their hands before the talks start again.

The WDS, for its part, is preparing major moves for the year of the charging bull. Remember, the bull is by far stronger than the strongest predator.
