

## First shots of WWII fired on Polish/Belarus border as collapse of EU begins

Events are unfolding at a blistering pace now with huge changes in Europe, Japan, China and elsewhere. This should lead to the liberation of the United States before too long.

The most earth-shattering event was shots fired by the Belarus military against the Polish military at the two countries' border. Here are some news quotes describing this:

*Anna Michalska, a spokesperson for Poland's Border Guards, said Belarusian forces fired shots at Poland's troops across the European Union's eastern border Thursday... The area along the border is restricted as part of a state of emergency that Poland imposed in early September, They allege the Moscow-backed Belarusian government is organizing and encouraging people to enter EU territory as an element of "hybrid war" in retaliation for Western sanctions on the authoritarian government in Minsk.*

This is a move by Russian patriot forces to fill the vacuum being created by the fall of Angela Hitler and her Nazi European Union, Russian FSB and other sources say. It is payback for the Nazi overthrow of the Russian spiritual heartland of the Ukraine and countless other abuses against the Russian people, the sources say.

Make no mistake, for Russian linked military forces to deliberately fire weapons against a NATO country is tantamount to a formal declaration of war. This is possible because the United States military is not going to fight Russia to protect the fascist forces who control the EU.

A public sign of this can be seen in this news:

*The Department of Justice and the FBI are investigating a group of seven American fighters under the federal war crimes statute for war crimes [in the Ukraine] ...no one, experts say, has ever been prosecuted, let alone convicted, under the US War Crimes Act.*

<https://www.buzzfeednews.com/article/christopherm51/craig-lang-ukraine-war-crimes-alleged>

Without US backing, the continental European nations (not the UK) will have no choice but to accept Russia as their new protector. Russia is planning to use the 47 member Council of Europe,

<https://www.coe.int/en/web/portal> -the continent's leading human rights organization- as the basis for a new organization to replace the EU, Russian and MI6 sources say.

There are many other signs the EU is collapsing. For example, there is now open talk of Poland leaving the EU or Polexit, after Polish courts declared themselves to be above the EU. Specifically -in a victory for democracy- Poland's Constitutional Tribunal ruled that key articles of one of the EU's primary treaties were incompatible with Polish law.

Another big sign the EU is collapsing is the near-simultaneous fall of governments in Austria and the Czech Republic. In something straight out of Hollywood, **Czech President Milos Zeman was taken to a hospital after Prime Minister** Andrej Babiš's ANO party lost the election there. The Pandora Papers investigation revealed Babis secretly moved \$22 million through offshore companies to purchase an estate on the French Riviera in 2009 before he entered politics. Zeman was certainly put in the hospital in a move to delay the installation of a new government that would look into these criminal dealings.

<https://www.bbc.com/news/world-europe-58863671>

In Austria as well **Chancellor Sebastian Kurz has stepped down because of a corruption scandal.**

<https://www.bbc.com/news/world-europe-58856796>

What these nations have in common is that they were part of the Austro-Hungarian Empire. Remember, it was at the very first Davos World Economic Forum meeting that Austro-Hungarian would be Emperor and Habsburg family heir Otto von Habsburg introduced Klaus Rothschild (Schwab) as his frontman. Schwab is the guy behind the “great reset” and the fake pandemic.

It won't be long now before Rothschild henchman Emmanuelle Macron becomes the next domino to fall, French patriots promise. The guillotine was invented for people like him.

It is interesting in this context that the EU has called off trade talks with Australia; allegedly because they are no longer buying submarines and helicopters from them. In reality, it means the Rothschilds are also losing Australia now.

Here is one of many signs Canadians are waking up as well.

Justin Castro's days are numbered for sure.

OK so now let us look at the situation in the US. Here we see open revolt in the form of pilot strikes, a military move into Facebook headquarters and much more.

What people need to still realize though, is that Donald Trump is not the man to lead the US back to democracy and independence. Remember, open-source information in places like Forbes and the Wall Street Journal show he was bailed out by the Rothschilds each time he went bankrupt as a businessman. Trump is also openly calling for everybody to be vaccinated for the non-existent pandemic.

General Michael Flynn has said the US military offered Trump a chance to overturn the stolen 2020 election and Trump betrayed them by refusing. For this reason, the White Dragon Society sent a representative to meet in person with Flynn last week. The idea was to offer Flynn the job of interim president of the US following the formal bankruptcy of the USA Corporation. According to this Dragon family member, Michael Flynn is

not to be trusted. Flynn told the WDS representative that he had never heard of the dragon family or of this writer and his work. Since he was head of the Defense Intelligence Agency this means he is either lying, dumb, completely out of the loop or secretly working for the Khazarian mafia.

Russian intelligence corroborated doubts about Flynn by sending us evidence he is connected to a cult of fraudulent spiritualists linked to Adolf Hitler.

<https://www.bitchute.com/video/lhNP7hYBLJXM/>

For this reason, the WDS is now recommending Robert F. Kennedy Jr. as a possible interim president following the chapter 11 bankruptcy of the USA. However, as a matter of disclosure, please note this writer is distantly related to Kennedy since he is descended from my paternal great-grandmother McCarthy's sister (according to my grandmother). Kennedy is nonetheless clearly intelligent, articulate and well-informed, which is a rarity in US politics these days.

In any case, the Rothschild/Rockefeller clan behind the fake Biden regime is far from finished and they are fighting tooth and nail to stay in power. They have been using every trick in their arsenal to avoid being declared insolvent on October 18th.

For example, they are trying to issue a \$1 trillion “coin,” backed by the SDR, to keep solvent, according to MI6 sources and media reports.

<https://www.axios.com/trillion-dollar-platinum-coin-mint-janet-yellen-223e7722-d7ba-47c9-b5f6-49a841d181de.html>

They also appear to be trying to loot Japan’s Norinchukin Agricultural bank for survival money. According to various news reports an outfit known as “Octagon Investment Partners,” was able to get \$500 million worth of “Collateralized Loan Obligations” or CLOs from this bank last week. What this means, according to MI6 and other sources, is they are using real money deposited at Norinchukin as collateral and leveraging it 100 times to create “\$50 billion.” This is part of the money they apparently used to kick the bankruptcy can down the road for a few weeks.

<https://www.bnnbloomberg.ca/japan-s-nochu-tiptoes-back-into-clo-market-after-long-absence-1.1661616?fr=operanews>

However, since the US posted a record \$73.3 billion trade deficit in August alone you can see even \$50 billion isn’t going to go very far.

The people behind the fake Biden regime also held emergency talks with the Chinese in Zurich Switzerland last week in a desperate bid to try to both blackmail and blowjob the Chinese into refinancing them.

The talks, “held behind closed doors in a Zurich airport hotel,” were led by US national security adviser Jake Sullivan and his Chinese counterpart, top diplomat Yang Jiechi. Public statements by both sides used phrases like “candid” and “wide-ranging.” The US side also said China should “avoid miscalculations that could cause competition to veer into conflict.” Sullivan later said, “I don’t think he [Yang] necessarily accepted our view.” In other words, threats and promises were made but no agreement was reached.

<https://www.zerohedge.com/political/biden-xi-hold-virtual-summit-years-end-us-china-talks-zurich-end-positive-tone>

<https://www.axios.com/biden-xi-summit-china-taiwan-17a175db-b102-4447-9a1d-36c17e3298cd.html>

This is the sort of official commentary issued by China after the talks:

*Raising the debt limit does not authorize new federal spending, but only allows the Treasury Department to borrow additional funds to cover expenditures that have already been approved by Congress but, with an extension lasting mere weeks, the United States still faces the real possibility of defaulting...”Because the United States has never defaulted on its obligations it is expected to be widespread and catastrophic for the U.S. (and global) economy,” economists at the White House Council of Economic Advisers said in a blog post earlier this week.*

[http://www.news.cn/english/2021-10/09/c\\_1310235039.htm](http://www.news.cn/english/2021-10/09/c_1310235039.htm)

Also, the US side apparently began to make good on its threats by sabotaging a plant that supplies the Russian gas pipeline to China. This is a repeat of their old “you cut off our money, we cut off your energy” bluster.

<https://www.zerohedge.com/commodities/gazprom-plant-connected-russia-china-gas-pipeline-shuttered-due-fire>

There has also been a campaign to vilify Russia and blame it for jacking up gas prices in Europe. What has happened is that the spot market has been manipulated to make it appear gas prices are rising by several hundred percent. However, most of the gas is sold through long-term contracts and these spot market manipulations have little real effect.

According to Russia's FSB, the Oligarchs hiding in Switzerland are jacking up food and energy prices around the world because people are refusing to become debt slaves by borrowing money created out of nothing. "They are trying to squeeze money out of the ordinary people by hiking the prices of necessities to pay their debts," the source explained.

<https://www.zerohedge.com/commodities/global-food-prices-hit-fresh-decade-high>

There is also a lot of intrigue in Switzerland centering around attempts to monetize historical Asian and other bonds, according to Asian dragon family sources. It turns out that a son of former Philippine leader Ferdinand Marcos (from an earlier marriage to an Asian royal) was allowing the Rothschilds and Rockefellers to cash historical bonds via UBS and Goldman Sachs. This was what was ultimately behind the Malaysian 1MBD financial scandal, the source says.

<https://www.malaysiakini.com/news/594084>

<https://www.reuters.com/business/finance/kpmg-denies-alleged-breaches-negligence-after-reported-1mdb-lawsuit-2021-07-09/>

<https://www.ft.com/content/dc8bae40-2a8a-46c6-8ae5-b3bd8938c5d4>

Apparently, this Marcos heir is now dead and all the associated funds have been "taken out of the system," he says. "The Marcos era is over," the source concluded.

The source also said, "there have been a lot of arrests in Zurich this week and a lot of would-be bond owners have been killed."

The source said the Bank of China, the Bank of America, Wells Fargo and HSBC were now involved in setting up a new and uncorrupt quantum financial system.

In any case, yet another reason the Khazarian mafia is running out of money is that they are apparently losing heroin revenue from Afghanistan. That is why "ISIS" (Rockefeller/Rothschild mercenaries) are trying to terrorize Afghanistan and the Taliban are fighting back:

*Taliban spokesman Zabihullah Mujahid said Monday that the Taliban raided a hideout for the Afghan ISIS affiliate, known as ISIS-K in a "decisive and successful attack,"*

<https://news.antiwar.com/2021/10/04/taliban-raid-isis-hideout-after-kabul-mosque-bombing/>

This caused Michael Kugelman, deputy director of the Asia Program at the U.S.-based Wilson Center, to threaten that "Friday's attack [on a mosque in Afghanistan] could be a harbinger of more violence."

<https://www.ctvnews.ca/world/taliban-say-they-won-t-work-with-u-s-to-contain-isis-1.5617631>

Nonetheless, Taliban political spokesman Suhail Shaheen told The Associated Press there would be no cooperation with Washington on containing the increasingly active "ISIS" group. In other words, despite the threats, "no more heroin money for you."

The Khazarian mob is now getting ready to hold an emergency meeting of their top servants to try to save the day. That is why the fake Pope Francis met on Saturday with U.S. House Speaker Nancy Pelosi.

Pelosi is in Rome for a panicked gathering of G20 slaves.

In what may be related we also note this seemingly disturbing news item:

*Private capital would be barred from news gathering and distribution operations, according to a public consultation paper posted on the website of National Development and Reform Commission, China's top economic planner.*

<https://www.straitstimes.com/asia/east-asia/china-proposes-bans-on-private-capital-participation-in-media>

However, CIA sources in Asia say the target of this move may be the Rockefellers. They note that a certain "Jeff Shell works

at Rockefeller Plaza and is endorsing China. He is THE ONLY EMPLOYEE at Peacock TV LLC, which controls 2,428 companies."

<https://corporate.comcast.com/news-information/leadership-overview/jeff-shell>

Here is more about MSNBC & NBC (Remember, the MS in MSNBC stands for Microsoft) and Their China Partnership.

*"Both MSNBC and NBC News are operated by NBC Universal, a company with extensive financial ties to the CCP. In November 2010, NBC signed an agreement with China's state-run media organization, Xinhua, to establish a business cooperation in international broadcast news. This was the latest market expansion by the CCP into American media.*

Since the signing of the business deal, the U.S. State Department identified Xinhua and five other Chinese state-run media organizations as "foreign missions." They have been identified as direct CCP operations and do not function as independent news outlets.

What this means is the Rockefellers are trying to stay in business by handing over their US corporate propaganda networks to China.

If the Chinese are just trying to remove the Rockefellers, then great. If they are trying to strangle the free press then they will end up strangling the truth and thus, eventually, themselves.

In Japan meanwhile, the Rockefeller/Rothschild rule is clearly ending. The new government of Prime Minister Fumio Kishida is planning to restart the economic planning agency that was key to Japan's post-war high growth. The so-called Covid pandemic has also suddenly ended here.

This may be related to the fact that months ago Japanese police were given paper documents proving that a certain Robert Rothschild had patented a Covid detection method in 2015. This set off a slow Interpol fuse that is now blowing up Rothschild, Rockefeller and Khazarian mafia rule worldwide.
