

JADE HELM. Mastering the Human Domain.

As The Pentagon deploys its War Machine around the USA to control its docile civilian population.

Paradoxically it is the elite that are criminally out of control.

And it is their inability to accept change, with respect for humanity & the planet

That has caused the world, war, fraud & pollution problems.

So if anyone should be imprisoned.

It is surely the people responsible for the damage.

The myth that there were just a few bad people in banking was shattered for good with the criminal conviction of; JPMorgan Chase, Citigroup, Barclays, The Royal Bank of Scotland & UBS with fines exceeding \$5 billion. These major banks admitted criminal wrong doing which involved senior staff in the rigging of exchange rates. Even complicity by the Bank of England is now on record.
